

"Newb-ART" from paranoia

Posted by Paranoia - 2007/06/28 04:17

You knew this was comming, and there are no other ways but to LISTEN to it :firedevil: haha

Todays theme - HELP A NEWB!

Actually i HOPED to get some little feedback on my 4th track i have ever done (Yes, that means im TOTAL newb, which explains the topic name..), so if you are producer a more detailed feedback would be VERY appriciated, if you are not producer, then it will be appriciated anyway, as producers and listeners maybe has a bit different point of view (since they know how its done.. etc etc), i believe.. So if you have a little time to waste - you say me HOW BAD it is :bounce: :bounce: :bounce: :firedevil: BAD, EVIL, PISSING-OFF critics are welcome! :D

P.S i think the tracks middle part is a better, sort of a 2 themes, and the 1st one sucks :stir:

Its called "04 demo" and can be found on myspace - www.myspace.com/paranoiathe

THANKS.

Not a bad sound at all, friend. Up tempo, keeps things moving. Wouldn't mind hearing a full length version some time.
