

Star Wars Breaks Bootleg!

Posted by DrFish - 2008/03/31 16:31

Oi Oi, I have finished my first Breaks Bootleg that any Star Wars fan will be sure to recognise :lurker:
Made completely from Star Wars Samples except for the beats and the bass! A lack of studio monitors means its pretty poorly mastered though :(.

As it's my first production I'd be grateful for any feedback as well as I'm very new to this Shizzle!

Just go to [HERE](#) to listen!
